

Cypress Cottage

November 2010

Dear Parents,

What a wonderful year it has been for Cypress Cottage. It is hard to believe we are fast approaching our winter break and the beginning of 2011! Our community has grown in so many ways since I became a member of Austin Montessori School thanks to the support, appreciation and awareness of the parent community and other donors outside of our community.

Cypress Cottage was added to the Sunset Trail campus in 2003 as a result of the generous donations to the Annual Fund from parents in the past. Each year we are able to purchase new materials and furniture for our outdoor and indoor environments that are needed to enrich the experiences of our children.

My assistant and I benefit from the visits by outside consultants and the observation and consultations of our mentor. We attend workshops and conferences. All of this continuing professional development provided by your donations to our Annual Fund gives direct benefit to our community.

Thank you for continuing to support the expansion and evolution of an educational method that has proven effective in developing and supporting the human potential, thereby contributing to the future of mankind. Through giving as much as your budget may allow this year, but no more, you are going beyond the best interest of your own child; you are giving to the world lives that have been nurtured through a whole approach to education, lives that will touch others in positive and thoughtful ways; you are creating hope for peace around the globe.

Your donation to the Annual Fund also allows the school to continue offering scholarship programs that make it possible to maintain social and economic diversity. Please give to the Annual Fund this year. No donation is too small.

Sincerely,

Yvonne Solorio
